# FEEDING SUGGESTIONS

*The Healthy Choice*

## Our Promise to you

You are what you eat, and so are your animals. At Castlereagh we jam-pack our bags with loads of natural goodness and freshness.

We endeavour to assist you to help you make good feed choices to meet your specific needs. Feeding can be complicated; age, breed, gender, workload, season, available roughage can all effect any diet.

Nothing beats experience, natural horse intuition and good judgment when monitoring any feed performance.

We recommend a complete care regime which includes a minimum of regular dental, worming, hoof care, plenty of available fresh water and veterinarian check ups.

Avoid making sudden changes to your horses diet, introduce a new feed slowly into their diet. Do not over feed or under feed. Keep feed box clean. Feed small amounts often, provide the correct amount of high quality roughage, practice economy, avoid false economy.

Our bags are not water proof or UV resistant, therefore friendlier to our environment. Storage in a cool, dry, well ventilated, covered area out of the weather and direct sunlight is essential. All grain products will attract pests and rodents, to avoid contamination we recommend keeping the product in a sealed, sturdy container.

*The Healthy Choice*

## Heat Rating

*Suitable for seniors, old-loved and cherished horse mates and pony club mounts.*

- All Natural, with added lucerne meal to ease digestion of protein and help keep a healthy digestive tract.
- Castlereagh's Premium Vitamins & Minerals premix will give your horse or pony the gift of health and vitality.
- Low grain, no oat content provides slow release of cool energy, minimising digestive disturbances.
- Processing is minimal to help every grain hold it's natural goodness that can be lost through over processing, cooking or extruding. Our gentle steam pelleting process locks in the natural nutrition for easier digestion & absorption.
- Great tasting enticing even the most fussiest of eaters.

# COMPLETE

## GENERAL FEEDING GUIDELINES

Give your ol' mate the gift of good health. Castlereagh Complete is a great concentrated, all purpose feed formulated especially for our very special equine senior citizens. Your trusty old mate has earned his keep and now deserves a great tasting, healthy feed guaranteed to be easy on his tummy.

This steamed conditioned pellet is the healthy choice for all your older equine mates. Complete is easily digested helping him get the most out of his every feed. Soften by wetting it down to make a hearty porridge, ideal for those cold days. Ideal for our friends missing teeth, recovering from sickness, injury or surgery. We have added Lucerne meal for ease of digestion of protein.

Be sure to provide a balanced diet by also feeding quality roughage (hay, chaff, pasture). With seniors please seek regular veterinary check-ups, in normal circumstances no additional supplements are required.

**"A CONCENTRATED COMPLETE FEED FOR EQUINE SENIOR CITIZENS"**  
*When only the best feed will do for your trusty ol' mate, Castlereagh Complete is the ideal pellet feed with all the right vitamins, mineral, protein and cool energy to ensure your ol' mate is looking good and feeling great.*

# ECONO COOL

*Castlereagh ECONO COOL is an ideal pellet for cool energy, packed with 100% all natural goodness. Developed for keeping kids ponies cool, or for the professional equestrian that likes total control of their horse's diet.*

*The Healthy Choice*

## Energy Rating

*Suitable for kids ponies, hot horses, companion horses, foundering horses or fat ponies .*

- 100% all natural feed.
- Non heating suitable for pony club ponies.
- Suitable for foundering or fat ponies.
- Great basic feed for expert or professional owners, keeping you in total control of your horses nutritional supplements.
- Our gentle steam pelleting process locks in the natural nutrition ensuring horses and ponies do not blow out.
- No artificial colours or flavours.
- No preservatives or additives.
- No restricted animal material.

## GENERAL FEEDING GUIDELINES

Econo Cool all natural pellets are a great feed for horses and ponies. This basic pellet has been developed for the pony that needs a very simple feed or the expert horse person that likes to add their blend of vitamins, minerals or electrolytes to suit your own personal preference or to match your horses workload.

Econo Cool is a high fibre, low energy feed, ideal for keeping companion or kids ponies quiet, happy & healthy.

If your pony is fat or foundering pony, Econo Cool is an ideal pellet to keep the gut working. Be sure to feed at least two feeds per day, feeding more frequent smaller amounts is better for the horses' digestive system.

Econo Cool is a great tasting, palatable feed your horses will love.

## FEEDING SUGGESTION

Body Weight 300 - 500 Kg	Econo Cool Pellets (Kg per day)	White Chaff / Hay (Kg per day)	Lucerne Chaff (Kg per day)

# HORSE & DAIRY

## GENERAL FEEDING GUIDELINES

The secret to the Castlereagh Horse & Dairy is in the simplicity of the feed in providing wholegrain goodness whilst being packed full of vitamins, minerals and nutrients sure to be pleasing to the palate. No wonder Horse & Dairy has been relied upon by horse lovers, farmers and Aussie stockmen for keeping happy & healthy animals.

Ideal for Pony Club mounts in light to medium work, conditioning cattle for show or store dairy cattle. For fattening sheep, goats, or rabbits. Horse & Dairy is also an ideal feed for our senior equine friends with a sensitive tummy, missing teeth, recovering from sickness, illness or surgery as Horse & Dairy can be wet down and made into a yummy porridge. With seniors please seek regular veterinary check-ups, in normal circumstances no additional supplements are required.

*Horse & Dairy is one of the very few traditional feeds on the market that has stood the test of time. This much loved family favourite has been tried & tested for over 35 years, and is still the trusted formula for keeping your animals happy & healthy.*

## FEEDING SUGGESTION

Animal	Horse & Dairy (Kg per day)	White Chaff / Hay (Kg per day)	Lucerne Chaff (Kg per day)

# HORSE FATTENER

## GENERAL FEEDING GUIDELINES

Castlereagh's Horse Fattener is a barley based pellet with a great nutritional combination for potentially tizzy ponies in light to medium work. Horse Fattener is a magnesium enriched pellet, ideal for keeping your horse or pony calm as some horses can get HOT at the thought of food.

Although education is essential in teaching good behaviour to your horse, a feeding regime of balanced nutrition and enough cool energy is an essential first step to ensure a calm horse or pony, Horse Fattener is the ideal pellet.

This steamed conditioned barley pellet is a healthy choice for all horses & ponies. Horse Fattener is easily digested helping your horse to get the most out of every feed. Be sure to provide a balanced diet by also feeding quality roughage (hay, chaff, pasture). With seniors please seek regular veterinary check-ups, in normal circumstances no additional supplements are required.

**"A CONCENTRATED COMPLETE FEED FOR FATTENING HORSES"**  
Horse Fattener barley pellets have been developed especially to reduce the risk of tension and mental instability often due to a high grain diet. Horse Fattener barley pellets contain 12% protein.

## FEEDING SUGGESTION

Body Weight	Horse Fattener Pellets (Kg per day)	White Chaff / Hay (Kg per day)	Lucerne Chaff (Kg per day)
300 - 500 Kg

# MOLASSES GRAIN MIX

## GENERAL FEEDING GUIDELINES

MOLASSES GRAIN MIX is a no nonsense feed for conditioning and fattening horses & ponies in light to moderate work.

At Castlereagh we only use premium quality grains to lock in the natural whole grain goodness. We keep our processing gentle and to a minimum. Our unique formula is designed to assist digestibility but not enough to kill important enzymes, vitamins and minerals.

This cool energy feed starts from steamed rolled barley and corn base. We have added high quality protein through including lupins. For improved palatability we have included cold compressed canola oil, sunflower seeds & molafos gold. Finally to round out this comprehensive feed; salt, dolomite and our very own Castlereagh premium vitamin & mineral premix finishes off a complete diet that will keep your horse healthy and happy.

*Castlereagh MOLASSES GRAIN MIX is one of the best value for money, conditioning horse feeds on the market. This NO OAT feed provides cool energy. Designed to keep horses in moderate work in tip top condition.*

## FEEDING SUGGESTION

**Heat Rating**

*Suitable for show & performance horses.*

- All natural pellets made from whole grain goodness.
- Pro Show pellets are high in protein and minerals that aid in quick recovery, muscle repair and development.
- The Pro Show low grain, no oat formula is a balanced cool conditioning feed that provides a slow release of energy.
- Pro Show pellets have been created through our gentle steaming process, locking in the natural nutrition for easier digestion & absorption, helping every grain hold its natural goodness that can be lost through over processing, cooking or extruding.
- Dolomite consisting of calcium magnesium carbonate has been added to help ease anxiety, resulting in a quieter horse.

# PRO SHOW

## GENERAL FEEDING GUIDELINES

Castlereagh Pro Show is a pelletised feed, which has undergone our steam conditioning process to release the full nutrient value of the high quality ingredients used in its formulation. It is a balanced, gentle conditioner that will improve mental focus, manageability, and promotes quick recovery, muscle repair and reduces digestive disturbance. It keeps your horses or ponies in peak condition by improving stamina, promoting muscle tone, and a strong top line.

It is an economical, no fuss feed which meets the needs of a range of horses from pony hacks and performance horses to finishing foals and spellers. The Castlereagh Pro Show pellets ensure the availability of proteins and minerals which will deliver a well conditioned show horse without the fizziness. Be sure to provide a balanced diet by also feeding quality roughage (hay, chaff, pasture).

**"Pro Show - The ideal conditioning pellet for peak show performance"**

*The Healthy Choice*

### Energy Rating

*Suitable for pregnant & lactating mares, yearlings, weanlings & stallions.*

- Great nutrition for brood mares in foal or lactating.
- Contains high quality protein. Fatty acids to enhance reproductive performance. Amino acids, particularly lysine and methionine for improved milk production.
- Castlereagh's Premium vitamin & mineral mix is formulated to optimise healthy milk production and resulting foal development.
- Low grain, no oat content aids slow release of cool energy, minimising digestive disturbances, whilst providing energy for foetal development.
- Our gentle steam pelleting process locks in the natural nutrition ensuring mares do not blow out.

# PRO BREED

## GENERAL FEEDING GUIDELINES

PRO BREED is an all natural, vitamin enhanced pelleted feed. We have designed PRO BREED to give your breeding horses the right amount of energy, protein, amino & essential fatty acids, vitamins and minerals.

For best results Lucerne hay or chaff should be fed with PRO BREED. Good quality pasture grazing is also beneficial for breeding horses. As a rough guide roughage intake should comprise at least 1% of the horses body weight.

PRO BREED is a great tasting, palatable feed your horses will love. Change your horses diet gradually over 7-10 days, and ensure clean and fresh drinking water is always available. Individual feeding rates should be based on body weight, body condition, stage of pregnancy or lactation.

PRO BREED should be fed in at least two feeds per day, feeding more frequent smaller amounts is better for the horses' digestive system.

*Castlereagh PRO BREED pellets are formulated to meet the special nutritional needs of brood mares in pregnancy and lactation. The high protein, vitamin and mineral content making PRO BREED a great feed for foals, weanlings and breeding stallions.*

## FEEDING SUGGESTION

Body Weight	PRO BREED (kg per day)	Lucerne Chaff (Kg per day)
300 - 500Kg		
Dry & Early Pregnant Mares	2.0 - 4.0 Kg	4.0 - 6.0 Kg
Late Pregnant Mares	3.0 - 5.0 Kg	6.0 - 9.0 Kg
Lactating Mares	3.0 - 6.0 Kg	6.0 - 9.0 Kg
Foal Creep Mares	0.5 - 1.0 Kg	(Free Access)
Weanlings	1.0 - 2.0 Kg	(Free Access)
Yearlings	2.0 - 4.0 Kg	(Free Access)
Stallions	2.0 - 4.0 Kg	(Free Access)

Probreed is a complete feed and as such the addition of other grains and supplements only serves to unbalance the ration.

### Heat Rating

*Suitable for horses & ponies in intensive work.*

- No Oat cool energy formula.
- Our special Premix will help balance out deficiencies in Australian pastures and help meet the nutritional needs of horses and ponies in work.
- Low grain, no oat content provides slow release of cool energy, minimising digestive disturbances.
- Processing is minimal to help every grain hold it's natural goodness that can be lost through over processing, cooking or extruding.
- Our gentle steam pelleting process locks in the natural nutrition for easier digestion & absorption.
- Great tasting with added molasses - molafos gold and canola oil to enhance palatability, enticing even the most fussiest of eaters.

# PROTEENAVITE EDGE

## GENERAL FEEDING GUIDELINES

Proteenavite Edge is a big-value, no-gimmick high energy muesli type feed for horses in intense work (including racing, endurance, pacers, sport horses and polo ponies).

We believe less is more that is why we steam then roll our barley and corn which ensures increased enzyme activity and guarantees gelatinisation of starches. We also gently steam, then pellet our protein sources (including soy) to produce our unique premium protein pellet. This process is one of the major protein digesting enzymes.

We choose cold pressed canola oil because the crushing and extraction process used produce very little change to the fatty acid profile and the nutritional qualities of the oil. Our super premium vitamin and mineral premix is one of the most complete on the market. Give your horse the Edge now!

*Proteenavite Edge is a high-energy, muesli style, grain mix for horses and ponies in intensive work. Sure to give you and your horses the winning edge.*

## FEEDING SUGGESTION

*Suitable for thoroughbred race horses, standard bred trotters, pacers and elite sport horses.*

- All natural, multi-purpose feed, designed to give your horse the gift of good health and the winning edge.
- Castlereagh's vitamin & mineral premix is formulated to maximise the performance horses by opening the capillary arteries for maximum blood flow, more blood equals more performance.
- Provides sustained energy, high performance and recovery after hard work.
- Proteenavite Zero's steam rolled and oil enriched formula is designed to reduce the recovery period for performance horses.
- Castlereagh's own field studies in Thoroughbred race horses demonstrated a recovery rate of 48 hours in most cases

# PROTEENAVITE ZERO

## GENERAL FEEDING GUIDELINES

If the winning edge is what you need then you need to start with the right feeding solution. Castlereagh developed Proteenavite ZERO to be the balanced all natural performance grain mix, sure to give you the winning formula. Processing is minimal to help every grain hold it's natural goodness that can be lost through over processing, cooking or extruding. Our gentle steam process locks in the natural nutrition for easier digestion & absorption.

Proteenavite ZERO is easily digested helping your competition, race or elite sport horses receive the most out of every feed. This makes for a very special yet economical feeding regime.

Be sure to provide a balanced diet by also feeding quality roughage (hay, chaff, pasture). With horses please seek regular veterinary check-ups, in normal circumstances no additional supplements are required.

Great tasting with added molasses (molafos gold) and canola oil to enhance palatability, enticing even the most fussiest of eaters.

**"CONCENTRATED COMPLETE FEED FOR PERFORMANCE HORSES"**  
*Proteenavite ZERO has had over 35 years of research and development to provide your performance horses with energy and then optimum recovery needed for top level competition.*

# SHOWTIME

## HORSE & PONY

### GENERAL FEEDING GUIDELINES

If the winning edge is what you need then you need to start with the right feeding solution. Castlereagh developed ShowTime to be the balanced, all natural grain conditioning mix, sure to give you the winning formula in and out of the show ring.

This mix is created through our gentle steaming process, to lock in the natural wholegrain goodness. ShowTime is easily digested helping your show, stud or performance horses get the most out of every feed. This makes for a very special yet economical feeding regime.

Be sure to provide a balanced diet by also feeding quality roughage (hay, chaff, pasture). With all horses seek regular veterinary check-ups, in normal circumstances no additional supplements are required.

**"ALL NATURAL SHOW CONDITIONING MIX"**  
*ShowTime is the professionals choice for a healthy, all natural, complete feed and the ideal balance of protein & energy needed for that special X factor. So if it is the winning edge you need, then Castlereagh ShowTime is the solution.*

# SUPER COOL

**"A COOL ENERGY FEED FOR THE MOST LOVED PONY CLUB MOUNT"**  
*Castlereagh's Non Heating Super Cool pellets are the original cool pellets, great tasting sure to make your horse or pony eat every last bit.*

*The Healthy Choice*

**Heat Rating**

*Suitable for horses or ponies in light to medium work.*

- All natural grain pellets ideal for a healthy balanced diet.
- Castlereagh's Premium Vitamin & Mineral premix is a complete supplement sure to give your horse or pony the gift of great health and vitality.
- Super Cool's low grain, no oat recipe provides a slow release of cool energy helping minimise digestive disturbances.
- Our gentle steam pelleting process locks in the natural nutrition for easier digestion & absorption, helping every grain hold it's natural goodness that can be lost through over processing, cooking or extruding.

## GENERAL FEEDING GUIDELINES

Castlereagh Super Cool is a great concentrated, all purpose feed suitable for pony club mounts. Your hard working pony has earned his keep and now deserves a great tasting, healthy feed, guaranteed to make him come back for more.

Our pellets are gently steamed, agglomerated and compacted to capture maximum nutritional value of our feed for your horse or pony. Castlereagh's highly controlled steaming and pelleting process maintains all essential vitamins, minerals and proteins that are often lost by the extrusion process. The steaming process not only unlocks the nutritional value for your horse or pony, but also extracts more weeds from the grain helping to keep your horse or pony and your pastures and paddocks in great condition all year round. So if it is the **HEALTHY CHOICE** you want for your horse or pony then trust on a Castlereagh Feeds pellet.
