933 Castlereagh Road,  
Castlereagh NSW 2749

Feeding can be complicated; age, breed, gender and exercise regime all play a part in your animal's overall condition and nutritional requirement. All animals always need free access to plenty of fresh cool water and a regular worming regime. We recommend you seek professional advice from your veterinarian or equine nutritionist should you require any further assistance in enhancing performance and condition of your animal.

To the maximum extent permitted by law, Castlereagh Feeds shall not be held liable for any losses resulting from the use or misuse of information contained on this brochure.

## Molasses Grain Mix

### HIGHLY PALATABLE CONDITIONING FORMULA, DESIGNED TO BRING OUT THE BEST IN YOUR HORSE

ShineMore Molasses Grain Mix is a fantastic comprehensive feed, designed to make your horse not just shine but sparkle. This no oat feed will provide your horse with cool energy and a clear mind to help them put their best hoof forward.

ShineMore is developed to deliver superior nutrition from locally grown whole grains. A great tasting, healthy grain mix that is easily digested.

Black sunflower seeds as an added protein and coat conditioner. Essential Omega-3 and -6 fatty acids to promote health, body and coat condition.

Fortified with an equine specific premium premix supplying essential minerals, trace minerals (in a combination of organic and inorganic forms), fat and water soluble vitamins and biotin.

Contains all natural premium quality lupins to boost protein for muscle development and repair. Bone strengthening calcium (in two forms) and phosphorus in a balanced ratio.

### Ingredients

Steam flaked barley, cracked corn, cracked lupins, Molafos EzGlo, canola oil, black sunflower seeds, dicalcium phosphate, salt, calcium carbonate and ECS Nutrition Premix.

### Nutrition & Feeding

Horse and Ponies

2 - 4 Kg Daily\*

Plus ad lib roughage in the form of hay/chaff/pasture, please alter feeding rates according to individual horse body condition.

\*Please note additional supplementation may be required at lower feeding rate

PROTEIN (%)	FAT (%)	FIBRE (%)	DIGESTIBLE ENERGY (Mj/Kg)	SALT MAXIMUM (%)
12.6	4.0	5.1	13.5	0.5
