CASTLEREAGH
FEEDS

The Healthy Choice

WHY BUY *The Healthy Choice?*

- We are a family owned and operated business
- This enables us to monitor all aspects related to the production of our feeds
- What's on the tag is in the bag
- Our ingredients DO NOT CHANGE so you know your animals or birds are always getting the same wholesome goodness in every mouthful of their Castlereagh Feeds
- 100% money back guarantee within 30 days from date of purchase

PROCESSING

- Processing is minimal to help every grain hold it's natural goodness that can be lost through over processing, cooking or extruding. Our gentle steam pelleting process locks in the natural nutrition for easier digestion and absorption.

ALL NATURAL

- You are what you eat, and so are your animals and birds. At Castlereagh Feeds we jam - pack our bags with loads of natural goodness and freshness. We use only the best quality Australian grown, all natural, wholesome grains. We also use only high quality steam cut lucerne chaff and lucerne meal. You and your animals or birds deserve only the best, so why not try one of our great tasting feeds, ensuring a happy and healthy animal or bird.

CASTLEREAGH'S PREMIUM VITAMIN & MINERAL PREMIX

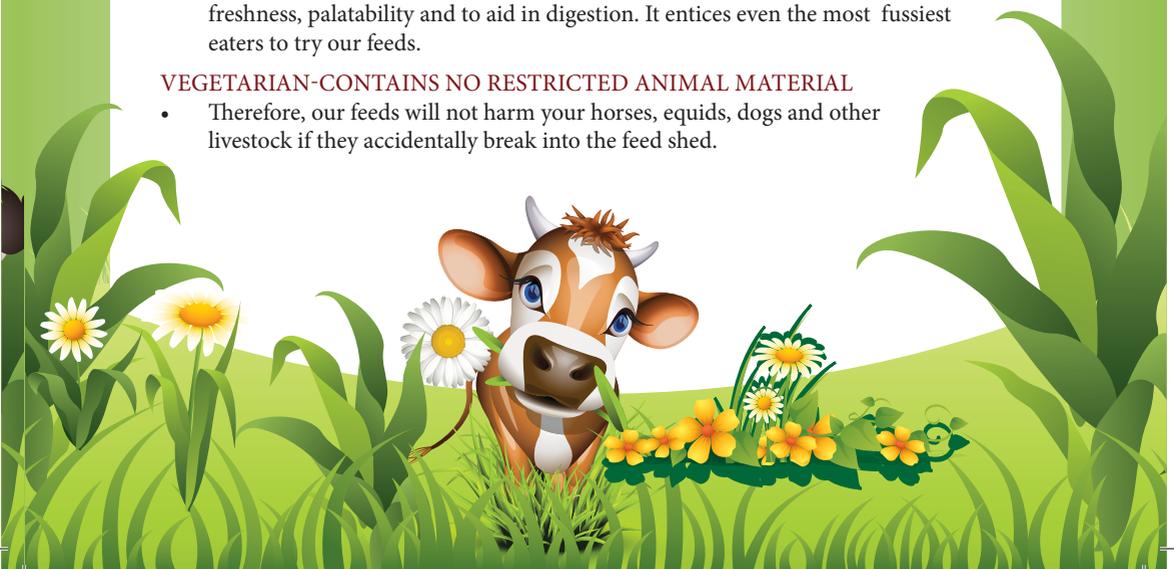

- Our Castlereagh premix will help balance out deficiencies in Australian pastures and help you meet the nutritional needs of your animals or birds as well as giving them the gift of health and vitality.

GREAT TASTING MOLAFOS GOLD

- Castlereagh's unique Molafos Gold formula has been added for longer lasting freshness, palatability and to aid in digestion. It entices even the most fussiest eaters to try our feeds.

VEGETARIAN-CONTAINS NO RESTRICTED ANIMAL MATERIAL

- Therefore, our feeds will not harm your horses, equids, dogs and other livestock if they accidentally break into the feed shed.

CASTLEREAGH
FEEDS

The Healthy Choice

Energy Rating

Suitable for calves.

- Formulated for real economy
- High in protein - rich in readily available energy
- Fortified with mineral & vitamins
- Helps compensate for insufficient milk.
- It makes for heavier weaning weights and more uniform calves.
- Economically more efficient to feed calves directly than to feed cows too liberally.
- It provides calves that are accustomed to feed with the result that they will continue to feed in the feed lot with a minimum of stress, shrink, digestive disturbances, and death losses, and without the normal period of 3 weeks to get them on full feed.

16% CALF PELLETS

GENERAL FEEDING GUIDELINES

The best yardstick for measuring performance in a beef breeding herd is kilos of calf weaned per cow bred. This fact, along with the demand for healthy, gain-ready feeder calves and prices being paid, is causing cow-calf operators to consider the immediate and residual benefits of creep feeding.

This is why we have developed our 16% CALF PELLETS. Our fixed formula, high quality ration is our promise to you.

Creep fed calves need special rations, since they are both in forced production and finishing. They are expected simultaneously to lay on fat and grow in protein tissues and skeleton.

Castlereagh 16% CALF PELLETS are high in protein and energy. Fortified with vitamins and minerals, sure to provide your calf with a proper balance of nutrients giving them a great start in life.

FEEDING SUGGESTION

Development Stage	16% Calf Pellets (Kg per day)	
3 - 5 days	100g	For the first 3 to 5 days only about 100g of feed per calf should be placed in the feeders per day, any left over's should be cleaned out and given to the cows each day. After 5 to 7 days of hand feeding the creep ration can be left before the calves safely. When 3 to 4 weeks of age calves should be started on feed very gradually. Once they are on full feed never let the feeder run empty, and avoid sudden changes. During the first 30 days, they will consume about 500g per head per day. By the end of the fifth month they should be up to 4 Kg daily. Of course with good pasture and plenty of milk these figures may be halved. Calves will consume approximately 225 kg of creep feed per head from one month of age to weaning. In years of lush pasture it will be less, in dry years more.
5 - 7 days	100g - 200g	
3 - 4 weeks	200g - 500g	
1 - 5 months	500g - 4Kg	
Weanlings	4.0 - 6.0 Kg	

INGREDIENTS

Steam rolled barley, bran, pollard, lupin, soybean meal, calcium magnesium carbonate (dolomite), salt and Castlereagh Feeds' Vitamin & Mineral premix.

16% PROTEIN SHEEP & CATTLE BOOST

GENERAL FEEDING GUIDELINES

When finishing sheep & cattle, feed accounts for 70% to 80% of the cost of feedlot finishing, this is why we developed SHEEP & CATTLE BOOST, quality of feed and real economy were our two main goals.

Castlereagh SHEEP & CATTLE BOOST is a cereal based feed, it contains no growth hormones, antibiotic, or urea.

Castlereagh SHEEP & CATTLE BOOST is fortified with all the vitamins and minerals required to finish bulls, steers, heifers, rams and lambs.

Castlereagh SHEEP & CATTLE BOOST when fed with high quality roughage is a complete feed. It delivers all the energy and protein required to deliver gains in excess of 1 kg per day for Weaners.

Economic importance of feed for beef cattle. The feeding of beef cattle constitutes the greatest single cost item of their production. It is important, therefore, that feeding practices be as satisfactory and economical as possible.

INGREDIENTS

Steam rolled barley, cracked corn, lupins, bran, pollard, molafos gold (molasses), calcium magnesium carbonate (dolomite), salt and Castlereagh Premium Vitamin & Mineral premix.

SHEEP & CATTLE BOOST is high quality, highly digestible product that offers real economy. SHEEP & CATTLE BOOST is a complete feed when fed with high quality roughage, it delivers all the energy and protein required for exceptional weight gain.

FEEDING SUGGESTION

		Cattle		Sheep

HORSE & DAIRY

GENERAL FEEDING GUIDELINES

The secret to the Castlereagh Horse & Dairy is in the simplicity of the feed in providing wholegrain goodness whilst being packed full of vitamins, minerals and nutrients sure to be pleasing to the palate. No wonder Horse & Dairy has been relied upon by horse lovers, farmers and Aussie stockmen for keeping happy & healthy animals.

Ideal for Pony Club mounts in light to medium work, conditioning cattle for show or store dairy cattle. For fattening sheep, goats, or rabbits. Horse & Dairy is also an ideal feed for our senior equine friends with a sensitive tummy, missing teeth, recovering from sickness, illness or surgery as Horse & Dairy can be wet down and made into a yummy porridge. With seniors please seek regular veterinary check-ups, in normal circumstances no additional supplements are required.

Horse & Dairy is one of the very few traditional feeds on the market that has stood the test of time. This much loved family favourite has been tried & tested for over 35 years, and is still the trusted formula for keeping your animals happy & healthy.
