Feeding can be complicated; age, breed, gender and exercise regime all play a part in your animal's overall condition and nutritional requirement. All animals always need free access to plenty of fresh cool water and a regular worming regime. We recommend you seek professional advice from your veterinarian or equine nutritionist should you require any further assistance in enhancing performance and condition of your animal.

To the maximum extent permitted by law, Castlereagh Feeds shall not be held liable for any losses resulting from the use or misuse of information contained on this brochure.

SUPERCool

Cool Balancing Mix

HIGH PROTEIN BALANCING MIX FOR HORSES & PONIES

Castlereagh's SuperCool is a mix high in both protein and fibre suitable for horses that are unable to easily digest cereal grain. Castlereagh SuperCool is a great cool energy feed ideal for performance horses and ponies.

-  All natural mix ideal for a healthy balanced diet for horses and ponies. SuperCool does not contain cereal grain.
-  SuperCool mix delivers bone strengthening through calcium & phosphorus and key electrolytes sodium & chloride.
-  Contains an equine specific premix supplying essential minerals, trace minerals (in a combination of organic and inorganic forms), fat and water soluble vitamins and biotin.
-  SuperCool contains our premium balancer pellet "Castlereagh ProBalance".
-  High quality lucerne chaff to assist in maintaining a healthy gut.
-  Cracked Lupins to assist in maintaining muscle mass and black sunflower seeds to promote overall health and coat condition.

Ingredients

Castlereagh ProBalance Pellet (cracked lupins, soy meal, lucerne meal, dicalcium phosphate, Molafof EZ Glo, limestone, canola oil, salt, and ECS Nutrition premix), lucerne chaff, cracked lupins, black sunflower seeds, canola oil and salt.

Nutrition & Feeding

Horse and Ponies

1 - 3Kg Daily*

Plus ad lib roughage in the form of hay/chaff/pasture, please alter feeding rates according to individual horse body condition.

*Please note additional supplementation may be required at lower feeding rate

PROTEIN (%)	FAT (%)	FIBRE (%)	DIGESTIBLE ENERGY (Mj/Kg)	SALT MAXIMUM (%)
24.8	9.8	16.2	12.2	1.0

*All specified values are averages
